

**"Philips Caen Fire Special Product Discontinuation Notice Number DN-51"  
Exhibit B: Identified Caen Previously Discontinued Products"**

"The below listed Philips' part types have been identified as being on a previous Philips' discontinued Product Notice and are affected by the Caen Fire. As such, if these part types are still active as: (a) still completing a final discontinued products notice cycle, or (b) having been re-activated from a prior discontinued products status, their last time supply conditions may have been significantly affected due to the Caen fire circumstances. Our customers need to immediately verify the current product availability conditions for these products with their local account or sales managers. Refer to Page 2 of the DN-51 notice letter for further information."
