

## Save As Help

Use this dialog box to save a model report for future viewing or printing.

You can control the following functions when saving a model report:

- **Filter**—file name or file extension to be used when searching for an existing model report name.
- **Directories**—list of directories to select when searching for existing model reports.
- **Files**—list of files that meet criteria in the Filter field.
- **Selection**—path name for the model report.

SmartModel Library users who want more information about model reports can refer to the [SmartModel Library User's Manual](#).
