

Save Transcript Help

Use this dialog box to specify a file name in which to save the transcript of an Admin tool session.

You can control the following functions when saving a transcript:

1. **Filter**—file name or file extension to be used when searching for a transcript.
2. **Directories**—list of directories to select when searching for files specified in the Filter field.
3. **Files**—list of files that meet criteria in the Filter field.
4. **Selection**—path name for the transcript file.

SmartModel Library users who want more information about using the Admin tool can refer to the *SmartModel Library Administrator's Manual*. If you are running the Admin tool off the CD-ROM, [click here](#). If you are using the network-installed Admin tool, [click here](#).
