

## User Options Help

Use this dialog box to choose the style of messages sent by the Admin tool. You select a message style by clicking on one of three possible choices:

- **Standard messages**—Provides the minimum necessary information.
- **Verbose messages**—Additionally provides information about unpacking of archives.
- **Debug messages**—Provides information needed for correcting problems.

SmartModel Library users who want more information about using the Admin tool can refer to the *SmartModel Library Administrator's Manual*. If you are running the Admin tool off the CD-ROM, [click here](#). If you are using the network-installed Admin tool, [click here](#).
