

## Choose Directory Help

This dialog box is a general-purpose navigation aid that allows you to do one of the following:

- Locate and specify the CD-ROM or network location from which to install models.
- Locate and specify the location of your LMC\_HOME.

SmartModel Library users who want more information about installing models can refer to the *SmartModel Library Administrator's Manual*. If you are running the Admin tool off the CD-ROM, [click here](#). If you are using the network-installed Admin tool, [click here](#).
